

## technical details (c)

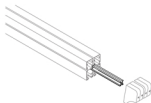

### Suntech Side Fall

System detail for side fall instructions.

### Hood Profile Sheets

Suntech's hood profile sheets provide an attachment covering solution for the system when not in use. The low profile aesthetic offers added protection to the system with a chic touch.

### Fabric Anti-Drip Edge Cord

The storm channel is a patented solution for joining two systems side by side with a waterproof joint.

### Rafter Profile With Water Guard Side Channels

The Suntech rafter profiles are designed with water guard side channels for easy installation and to prevent water from entering.
